This impression is not founded on the law and is erroneous. One of the acts of congress requires that congress shall ratify any agreement made with the Indians before the agreement shall become of effect, and it will therefore be necessary for the report of the commismission to be sent to congress and favorable action taken thereon before the president can declare the lands open to settlement. It will be a good while before settlers can go upon the lands.

Evidence of Western Ingenuity in the Construction of Fraudulent Ballot Boxes.

Washington, Aug. 12.-There are seventeen contested election cases awaiting the action of the next congress, all of which have been brought by Republicans. Of this number three are located in each of the states of Virginia, West Virginia and Mississippi; two in Alabama, and one each in Indiana, South Carolina, Maryland, Tennessee, Florida, Hail, Fire 2 Cyclone, and Arkansas. One of the cases, which will furnish the most sensational evidence is that of Waddell, Jr., Against Wise.

waddell, Jr., Against Wise, in the Third Virginia district. Waddell says in his letter preferring charges against Wise that besides acts of intimidation there was suppression of votes by ordinary means, which is the burden of all the petitions of contest.
