- Stated obj. of paras - we all know: Give a mood that have to get view of every com. in. period spread out over a couple of meetings to me.
- over pressure like x
 before a whole x
 remains x
 violence x
- Uns: we have communicated. hope Br. wd. feel the in at least 3. moly.
- Fair: well balanced doc: cessation of violence is what it's about
- Real fear about future: majority - do we really believe
- Doc. suggests things in time: find a way for communities to get on.
 Pull the violence out of society: generational process: Young Turks: stop recruitment of new gen.
- If prov. violence stops, so will Uns.

- Textual disagreement? squabbles? But this of unlikelihood of this month, a few months ago. agreed text forcing men of violence to lay down arms.
- really balance - movable feast! Changed over last fortnight.

- * - intent to meet those fears lucidly but doc. implicitly - not rhetorically understood but not other.
