

Appendix 1

## LOCATION AND CONCENTRATIONS OF UNEMPLOYMENT IN BELFAST AND DERRY

- (a) Information provided by the T&EA on unemployment per ward shows concentrations in North and West Belfast and in Botanic ward in South Belfast.
- (b) The population of each ward may or may not be similar, but the figures do identify location and concentrations of large numbers of unemployed people. Used in this way, the figures show that there is a large concentration of unemployed people in the lower part of the Ormeau Road and throughout flat land (Botanic). There are also large concentrations in North Belfast (Water Works and New Lodge) and in North-West Belfast (Upper Springfield and Ardoyne) and in West Belfast (Whiterock, Glencolin and Falls). Windsor ward in South Belfast and The Mount in East Belfast also show high concentrations of the unemployed.
- (c) The June 1997 Labour Market Trends shows the following figures for unemployment in Belfast.

	Male	Female	Total
<b>North Belfast</b>	3643	717	4360
<b>West Belfast</b>	5046	744	5790
<b>South Belfast</b>	2852	1040	3892
<b>East Belfast</b>	2418	649	3067

- (d) The Derry picture shows some wards much worse than others with regard to unemployment.
- (e) A recent report produced by the Urban Institute "Unemployment in Belfast and The Making Belfast Work Programme" points out on page 7 that between June 1995 and June 1996 the number of full-time jobs in Northern Ireland fell whilst the number of part-time jobs increased by almost 4,700 and the bulk of those (3,500) went to females. The great majority of the unemployed are men, therefore unemployment amongst males is left virtually untouched.

BELFAST DISTRICT COUNCIL -  
WARD

UNEMPLOYMENT AS AT OCTOBER 1987

	MALE	FEMALE	TOTAL
