FAO General De Chastelain (Chairman of Business Committee)

UDP revised proposal for remainder of Opening Plenary

This proposal is unchanged from our proposal of 25th July save that we propose that the 'Opening statements' be raised to the first item. The reason for this is simply that as the talks will have resumed from a break of some six weeks, it may be useful to allow the participants to outline their views and positions on issues to be dealt with such as decommissioning and the comprehensive agenda.

Proposed Agenda for remainder of Opening Plenary

1. Opening Statements
2. Consideration of International Body report on decommissioning
 - (a) Discussion of Proposals
 - (b) Discussion of methods which may enable further progress on decommissioning alongside negotiations in three strands
3. Discussion of comprehensive Agenda for negotiations
4. Adoption of Comprehensive Agenda
5. Adoption of proposals to address decommissioning issue; launch of three stranded negotiations
6. Concluding remarks by Independent Chairman
