Business Committee

1. Further to my letter of 29 July, 1996, asking Participants to nominate individuals to representative them on the Business Committee, as well as permanent points-of-contact persons, I attach a list of the names received (together with associated telephone numbers).
2. Participants are requested to review this list and to inform me (or Clifford Garrard Ext 22992) of any errors or omissions or changes which they would like to see reflected in the final list which I hope to have ready for release as soon as possible.
